PROFESSIONAL SUMMARY

Data Analyst and Business Intelligence professional with 3+ years of experience delivering decision-ready analytics across manufacturing, finance, media, CRM/ERP and government/public-sector programs in India and the United States. Skilled in SQL, Python, Microsoft Excel, Power BI, Tableau, Microsoft Fabric, Azure SQL, ETL/ELT, data modeling, API integration and Power Automate. Built executive dashboards, automated data pipelines and historical migrations that reduced manual effort by up to 70%. Partnered with stakeholders from requirements through production and used AI-assisted workflows to accelerate analysis, quality assurance and documentation. Targeting Data Analyst and Senior Data Analyst roles requiring end-to-end analytics ownership.

SKILLS

Business Intelligence & Reporting: Microsoft Excel, Power BI, Tableau, Dashboard Development, KPI Development, Executive Reporting, CRM Dashboards, ERP Dashboards, Data Visualization, Data Storytelling, Ad Hoc Analysis

Data Analysis & Programming: SQL, MySQL, Azure SQL, Python, Pandas, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis, Root-Cause Analysis, Data Cleaning, Data Validation, DAX, Power Query, SAQL

Data Engineering & Automation: Microsoft Fabric, REST APIs, ETL/ELT Pipelines, Dataflows, Data Modeling, Data Transformation, Power Automate, Historical Data Migration, Data Reconciliation, Automated Refresh, Workflow Automation

Platforms & Business Systems: Microsoft Dynamics 365 CRM, Salesforce CRM Analytics, Power Apps, Azure SQL, QuickBooks, Bill.com, SharePoint, CRM Analytics, ERP Analytics, Finance Analytics, Public-Sector Analytics

Delivery & Collaboration: Requirements Gathering, Business Requirements Analysis, Stakeholder Management, Cross-Functional Collaboration, Business Communication, Attention to Detail, Process Improvement, Data Quality, UAT, Production Support, Documentation, Problem Solving

AI & Advanced Analytics: Generative AI, Prompt Engineering, NLP, Machine Learning, AI-Assisted Analysis and Development

WORK EXPERIENCE

Data Analyst - Jun 2026 - Present

BugendaiTech Pvt. Ltd.

- Built Power BI, Tableau, CRM and ERP dashboards across manufacturing, finance, operations and public-sector use cases, translating complex datasets into actionable KPIs and business insights.
- Developed analytics and automation for a dual-brand Dynamics 365 implementation spanning 2 business entities and a 5-stage sales lifecycle, improving visibility from lead generation through invoicing.
- Designed Power Automate workflows for website lead capture, campaign matching, Outlook email-to-account tracking and CRM data processing, reducing manual record creation and follow-up effort.
- Accelerated historical CRM data migration using reusable dataflows, owner-validation rules and reconciliation checks; improved data consistency across Accounts, Contacts and Opportunities.
- Analyzed government and public-sector datasets across India and the United States, developing dashboards for maritime operations, crime, geospatial, rural, fintech and government-spending indicators.
- Partnered with client stakeholders to define metrics, validate datasets, troubleshoot dashboard performance and deliver production-ready reporting solutions using AI-assisted analysis and quality checks.

Associate Data Engineer - Nov 2024 - May 2026

BugendaiTech Pvt. Ltd.

- Owned end-to-end analytics delivery across API ingestion, Azure SQL data modeling and Tableau/Power BI reporting for finance, CRM and operational use cases.
- Automated reconciliation, refresh and reporting workflows across Salesforce, QuickBooks and Bill.com, reducing manual data preparation and reporting effort by 70%.
- Built Salesforce CRM Analytics recipes, dataflows and SAQL dashboards for SLA hours, service visits, timecards and financial reporting; reduced duplicate-data validation effort by 65%.
- Created reusable SQL transformations and quality checks that improved reliability of client-facing dashboards and shortened issue-resolution cycles.

Associate Developer - Data Science - Mar 2024 - Oct 2024

BugendaiTech Pvt. Ltd.

- Built Power Apps and Power Automate solutions for internal process tracking, standardized data capture and workflow automation.
- Developed and evaluated Generative AI prototypes using Llama 3, GPT-3.5 Turbo, GPT-4 and Stable Diffusion for business productivity use cases.
- Converted stakeholder requirements into analytical prototypes, dashboards and structured datasets for faster review and iteration.

Data Science Intern - Jun 2023 - Feb 2024

BugendaiTech Pvt. Ltd.

- Performed data cleaning, exploratory analysis, visualization and machine learning on structured and text datasets using Python and SQL.
- Built a Generative AI project-planning application that converted prompts into structured project plans, reducing initial documentation effort by 50%.

PROJECT EXPERIENCE

CRM & ERP Analytics Transformation - Woodrow Corporation & Sterling, 2026

- Built CRM/ERP reporting foundations and dashboard requirements across sales, quotes, orders, invoices and operational workflows for 2 manufacturing brands.
- Optimized dashboard usability and performance, automated data movement with Power Automate and migrated historical CRM records using validation-led dataflows.
- Implemented brand-aware reporting and document processes while preserving account ownership, data quality and end-to-end pipeline visibility.

Blue Outdoor Analytics Platform - Blue Outdoor, 2026

- Integrated Salesforce, QuickBooks and Bill.com APIs into Azure SQL and Tableau dashboards for P&L, invoice aging, partner revenue share and geo-radius analysis.
- Automated refresh and reconciliation workflows, reducing manual data preparation by 70% and improving decision turnaround for finance and operations teams.

US Government & Public-Sector Analytics - Carahsoft, 2026

- Built interactive dashboards using U.S. government and public-sector datasets across 5 analytical domains: crime, geospatial intelligence, rural indicators, fintech and government spending.
- Developed data models, KPI views, filters and trend analyses to support cross-sector comparison, geographic insights and evidence-based decision-making.

Service Operations & Manufacturing CRM Analytics - TK Elevator, 2024-2026

- Built Salesforce CRM Analytics recipes, dataflows and SAQL dashboards for SLA hours, SLA visits, timecards and NIMOD financial reporting.
- Resolved duplicate-data issues and reduced manual validation effort by 65%, improving confidence in operational and financial KPIs.

Government of India Maritime Analytics - Indian Maritime Week - Indian Ports Association, Ministry of Ports, Shipping and Waterways, 2025

- Handled analytics delivery for a Government of India maritime-sector initiative, developing executive dashboards for event operations, stakeholders and leadership reporting.
- Converted complex operational data into decision-ready government reporting, improving review cycles by 60% and enabling faster leadership insights.

CERTIFICATIONS

- [Microsoft Certified: Fabric Data Engineer Associate - May 2026.](#)
- [Microsoft Certified: Power BI Data Analyst Associate - Oct 2025.](#)
- [Microsoft Certified: Azure AI Fundamentals - Dec 2024.](#)
- [Salesforce Certified AI Associate - Dec 2024.](#)
- [Advanced PGP in Data Science & Machine Learning, NIIT StackRoute - Mar 2023.](#)

EDUCATION

B.Tech in Electrical Engineering, College of Engineering and Management, Kolaghat, 2015 - 2019, CGPA: 7.37/10
